

To Heid

Don't really know where to start, back in 2013 I came to visit the Park with Darcy, a total nervous wreck who wasn't ready to let go of my little girl, I reluctantly came along with no real intention of letting her go and then I met you....

From the first time I met you (with all of those kids hanging from your leg!) you made me feel welcome and at ease. You just 'got it' It shone through how much you loved and cared for the children and never made me feel I was being over the top. I think my face was a picture when you said 'start Darcy tomorrow!!'

I did start Darcy the next day as you advised & have never looked back.

The love and care you & your team provide is clear to see along with all of the wonderful ways you keep them entertained.

Darcy had the most wonderful time at the Park & had the best start to her school life, fast forward two years and along came Hallie in 2015!!

Yet again your love & reassurance ensured she settled straight away and has enjoyed every moment in your care. The two of you have such a wonderful bond.

I cannot thank you enough as a teacher
